

PROBERS

Will Investigate By Davis Admin- istration

STATE NEEDS REVENUE

Dean Bill Has Been Re- Introduced in the Senate

Gauntlet Thrown Down to the Temperance Forces—Senator Dean Interviewed.

Columbus, O., Feb. 16.—Chairman Beatty, of the probe committee, said today that an investigation of the administration of H. Davis as state treasurer, should be begun as soon as the Mark Slater investigation is completed, which will probably be the last of this week.

Senator Beatty declared this program had been decided upon in view of the recovery of certain books and records that were missing several years ago, when a legislative committee probed Davis' administration.

The committee is on the track of still more graft in the purchasing of supplies under the Slater administration.

The state of Ohio must have more revenue and to that end Chairman Beatty of the house finance committee will introduce a bill increasing the tax on automobiles at least 100 per cent and possibly more. There are about 25,000 autos in Ohio and the present tax is five dollars for gasoline cars and \$2.50 for electric. Another bill will tax billboards.

When the Franklin county grand jury convened today Prosecutor Webber presented the evidence against Former State Printer Mark Slater unearthed by the Beatty probe committee.

That the Bell Telephone interests are trying, through the agency of Elson's House bill, No. 231, to get control of independent telephone companies in Ohio for the purpose of throttling competition and placing the public at the mercy of the Bell is the gist of the charges made before the house committee on railroads and telegraph last evening during the hearing of arguments on the bill. The charge was specifically formulated by J. A. Ainsworth, of Dayton, superintendent of J. P. Morgan's independent phone company in that city.

It was brought out in several cities and towns throughout the city that the Bell company had cut rates in order to force independent companies out of business.

Senator Thomas A. Dean has reintroduced his amendment to the Rose law granting cities and villages which vote wet the right to remain wet instead of being controlled by the majority vote of the county, and to make the unit for future local option elections the same for the wets as the dries now enjoy under local option laws.

when put in application can be effective only when the subdivision of the community involving it is small and where the voters recording their sentiments are really in a large and active majority in the small section of territory to which the prohibition of liquor applies.

"Granting that under certain conditions the people of any municipal subdivision or of a small town or village should by a majority vote exclude the sale of liquor, the chances are that with a fairly large majority the sentiment would be strong enough to sustain the law and secure a reasonably strict enforcement of it.

"Consider, in analyzing the Rose law, that there are many counties in Ohio measuring from 35 to 40 miles in length and breadth. In some of them there are towns and cities ranging from 5,000 to 50,000 population. From these I exclude the four counties containing the great cities of the state.

"Take, for instance, Muskingum county, of which Zanesville is the county seat. Here we have a city of about 25,000 people, with a total vote of 7,250. When the election took place under the county local option law Zanesville went wet by 1,414 votes.

"The total population of the county is about 70,000, with a total vote of 14,973 at the wet and dry election. In the county local option election the county as a whole gave a dry majority of 1,011.

"The city of Zanesville is plainly deprived of its right of option on the liquor question and is compelled to submit to a county dictum enforced by the votes of a remote rural population.

"The same condition holds good in other counties.

"Thus we see how absolutely the extension of local option to anything beyond a very small subdivision of local government destroys the very essence of the alleged purpose of the system.

"County local option becomes county coercion. County local option destroys all option in the cities and villages whose inhabitants repudiate prohibition by their votes. It utterly subverts home rule, not alone in the determination of the liquor question, but in many other matters of urgent municipal necessity.

"The proposed amendment to the Rose law, if passed by the legislature, will not of itself alter the conditions brought about by the operation of that law by one iota. It will merely put it up to the people to alter those conditions if they see fit to do so. In other words, if the effect of the Rose law, as it now operates, is considered good, the amendment will simply prove inoperative. If it is not considered good, the people will have the right and power to change it.

"Not only that, but I am prepared to show by the grand jury reports that crime—not violations of the liquor laws, mind you, but felonies—have actually increased in counties which have been voted dry.

"Time and experience are ably demonstrated.

LOVE

Is Affection of Weak Nervous System

AN EXPERT'S OPINION

Who Was Called as Wit- ness in Trial of Man for Murder

Acts Same as a Germ But System Can Be Protected If Properly Organized.

Chicago, Feb. 16.—Sentimental artists who picture Dan Cupid, accoutred with bow and a quiver of arrows are behind the times. The little god now runs around carrying a storage battery that generates love waves.

Young couples who go mooning around in the spring time are merely the victims of these love waves which are splashing on their nervous ganglia.

At least this is the opinion expressed by Dr. James Whitney Hall, today, called as a witness in the trial of Thos. Katsone on charge of murdering Miss Victoria Kawano, a Polish girl. Katsone's attorney endeavored to prove that insanity resulting from love for the girl inspired their client's deed. To refute this the state's attorney today summoned Dr. Hall to tell what love really is.

According to the medico-legal expert, love is never insanity, but is a temporary affection of a weak nervous system. A love wave can break in on the nervous system and disorganize it in much the same way that a germ finds lodgment and produces a couple of weeks of la grippe. On the other hand, says Dr. Hall, if a person's nervous system is properly organized and protected, Cupid can splash his love waves all up and down the spinal column in vain.

LEAVES VALENTINE; IS SHOT.
Montgomery, Ala., Feb. 16.—Edward Bowman, an 11-year-old lad, was shot by Mrs. W. H. Pierson Monday night and died yesterday. The lad ran up to put a valentine on the porch and was taken for a burglar. The woman shot through the door.

FAILED TO CONVICT

Pittsburg, Feb. 16.—District Attorney Blakely failed to secure a conviction in the first trial of the latest series of graft cases here today when a jury returned a verdict of not guilty in favor of Max G. Leslie charged with perjury in testifying before a recent grand jury.

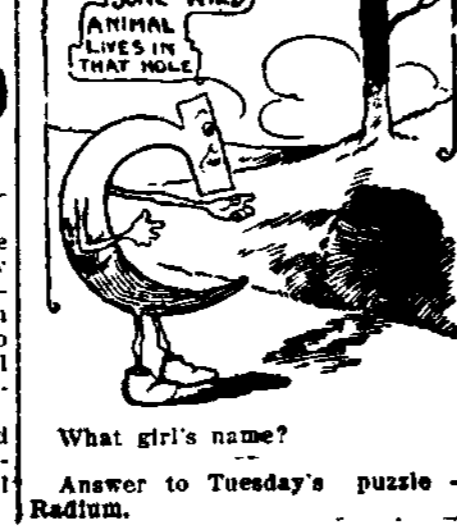

HOG PRICES WILL SOAR

Chicago, Feb. 16.—Packers and provision men predicted today that the prices of hogs and hog products would in the next few days establish a new high record, prices surpassing the high average of yesterday, \$9.11 a hundred weight, which was the highest since the Civil war.

Today the receipts at the Union stock yards were 37,000 higher than had been expected and the prices declined a trifle. The packers say this check is only temporary.

WORKING TO MAKE FLYERS OF UNCLE SAM'S SOLDIERS AND SAILORS

Washington, Feb. 16.—President Taft, out to President Taft and the legislators and the members of the Senate and House are being besieged by aeronautic enthusiasts, who are urging on the authorities the necessity of supporting the military and naval forces of the United States with war balloons and aeroplanes. It has been pointed out to President Taft and the legislators by General James Allen, chief signal officer of the army, in charge of the experiments in aviation. Cortlandt Field Bishop, president of the Aero Club of America, and other men interested in the subject, that the United States is far behind other nations in the matter of military aeronautics.

The army of this country has one dirigible balloon and two aeroplanes, and the navy has none at all, whereas Germany has now in military service 14 dirigibles of six different models and 6 aeroplanes, Austria 2 dirigibles and 4 aeroplanes, England 2 dirigibles and 2 aeroplanes and Spain 1 dirigible and 2 aeroplanes. Altogether it is known that European military and naval forces are today equipped with 32 dirigibles and 44 aeroplanes. One of the British aeroplanes is the Cody machine, invented by Colonel S. F. Cody, formerly an American citizen but now a British subject. The Japanese are devoting much time and money to experimenting with military balloons and aeroplanes.

SUICIDE

Attempted by Niece of Senator Elkins in the Willard Hotel at Kansas City.

Kansas City, Feb. 16.—Miss Agnes Elkins, niece of Senator Elkins, of West Virginia, society woman and aspirant for stage honors, attempted suicide by shooting herself in her room at the Willard hotel this morning. A bullet from a small revolver struck just over her heart, inflicting a dangerous but not necessarily fatal wound. Dr. Phillips, her physician, says she has a slight chance to recover.

BUCK SHOT

Used by Kinsman of Former President Jefferson Davis to Commit Suicide.

Natchez, Miss., Feb. 16.—Vidal Davis, brother-in-law of President Finley, of the Southern railway, and of Senator Chamberlain, of Oregon, killed himself today by firing a load of buckshot into his heart. He was a kinsman of former President Jefferson Davis, of the Confederacy.

MRS. CLAUSS SPECKELS DEAD.

San Francisco, Feb. 16.—Mrs. Anna Christina Speckels, wife of Claus Speckels, died yesterday at her residence here. She was 79 years of age and leaves four sons, John D., Claus A., Jr., Adolph and Rudolph, and a daughter, Mrs. John Ferris, of England. Mrs. Speckels leaves a large fortune.

POSTAL WILL CONTINUE TO FURNISH COMPETITION

New York, N. Y., Feb. 16.—The annual report of the Mackay companies was issued this afternoon. A striking feature of the report is the following extract: "Announcement of the intended sale of the telephone company stock now held by the Mackay companies will sell its entire stock in the American Telephone and Telegraph company, that step being in accordance with public opinion, which is in a suspicious view of stock in a company recently purchased by the Western Union Telegraph company. Moreover that stock was acquired by the Mackay companies with a view to bringing about economies in the construction and maintenance of joint poles and lines over long stretches of country, where the business was not sufficient to justify either companies constructing an independent pole line by itself. Many such arrangements were made, each company owning one-half of pole line, but having nothing to do with the business of the other companies. Since, however, the American Telephone and Telegraph company has acquired control of the Western Union Telegraph company the time has come for the Mackay companies to sell its holdings of stock in the American Telephone and Telegraph company and that will be done. The Postal Telegraph system will continue to be free and independent, prepared to maintain the competition which it has furnished for twenty-five years."

New York, N. Y., Feb. 16.—Elimination of police graft by allowing the bribe givers certain privileges without forcing them to do out small sums to the policeman on the beat is the latest move toward the moral and political cleaning up of New York accredited to Mayor Gaynor.

FIGHT

Ahead of Reclamation Bond Bill in House

CONSERVATION PROGRAM

Of Chief Executive Is Receiving Some Attention

Strong States Right Sentiment Has Developed on Democratic Side of House.

Washington, Feb. 16.—"The only conservation legislation that will be passed at this session of congress will be the general classification bill the withdrawal bill and the reclamation bond issue act," declared a member of the house today, "and it will be necessary to fight hard to get the reclamation bond bill through the lower house."

Indications are that this is about as near an agreement as the leaders have reached on the president's conservation program and that when this session ends the executive will still be charged with the task of preventing the Alaskan coal beds and the water-power sites of the west from passing into control of monopolies. The regulars say the conservation people are not agreed as to what they want, and on the Democratic side of the house a strong state's rights sentiment has developed that bids effectually to stop any radical conservation legislation. This, together with the opposition of the public lands trustees who follow Chief Justice Taft, has put the president's program in a very precarious position.

Since the recent governor's conference here, the old issue of state's rights has appeared more persistently in congress than at any time since the civil war and it appears the Democrats are not alone in their advocacy of the doctrine. A number of Republicans are taking up the theory that to the states alone belong the control of the water power sites and there is developing a strong disposition to let the executive deal with the coal question through the passage of the withdrawal bill. One obstacle is the threat by Representative Mann to compel the house to pay attention to the water power question of his bill, upon which his committee on interstate and foreign commerce is hard at work. It was learned today, however, that Mann had decided to eliminate from his bill, the water power question on navigable streams, federal control over which is a mooted question. The withdrawal bill has already passed the senate and the bill to issue certificates of indebtedness for \$30,000,000 to complete the reclamation projects has been favorably considered by the senate committee on irrigation. The withdrawal bill legalizes the withdrawal from entry of lands deemed to be valuable for disposition under existing laws and would keep the coal situation in status quo, if the president should elect to hold up the settlement of the coal lands pending further consideration. The general classification bill provides for a classification of all undisposed lands and would be the basis for future legislation.

The bond issue bill for the reclamation service is before the house committee on ways and means, where it will have some rough sledding according to present indications. The progressive Republicans in the house are not in a hurry to press the conservation legislation because they say the longer congress delays action on these measures, the nearer the vote on them will be brought to the time when members of the house are seeking the endorsement of their constituents.

WOULD PROBE WALL STREET

Albany, N. Y., Feb. 16.—Assemblyman Frederick R. Toombs of New York has drawn up a resolution looking to a legislative probe of Wall street and its methods. The resolution will follow as closely as possible the one which authorized the life insurance investigation.

ROBSON-BELMONT MARRIAGE

TO UNITE ART AND FINANCE

New York, Feb. 14.—Few engagements of recent years have attracted so much attention in New York as that of Miss Eleanor Robson, the famous actress, and August Belmont, the well-known banker. The wedding will take place some time next month, and will be a quiet one at Miss Robson's home in this city. Miss Robson was born in England in 1880 and made her first appearance on the stage in San Francisco in 1897. She began her career as a star at the Garden Theatre, New York, about five years ago, playing

THE LIGHT THAT NEVER FAILS

[SPECIAL ANNOUNCEMENT]

THE Company has allotted extraordinary BONUSSES to its Industrial policy-holders payable in 1910. These are CASH BONUSSES which may be used in payment of premiums upon their Industrial policies. They were not promised in the policies, either expressly or by implication, the policies being strictly non-participating. No such bonus has ever been given by any company to its policy-holders, and no such bonus ever will be given by any other company.

BONUSSES TO LIVING POLICY-HOLDERS

To every holder of an Industrial whole life policy of the Company who shall pass the age of 75 during 1910, a bonus on its anniversary date thereafter equal to premiums for..... 52 weeks

To every holder of an Industrial policy in force issued in 1879 and 1880, a bonus on its anniversary date equal to premiums for..... 26 weeks

To every holder of an Industrial policy in force issued in 1881-2-3-4-5, a bonus on its anniversary date equal to premiums for..... 20 weeks

To every holder of an Industrial whole life policy in force issued in 1886-7-8-9-1890, a bonus on its anniversary date equal to premiums for..... 15 weeks

To every holder of an Industrial whole life policy in force issued in 1891-2-3-4-5, a bonus on its anniversary date equal to premiums for..... 10 weeks

To every holder of an Industrial whole life or increasing life and endowment policy issued in any year from 1896 to 1905 inclusive, a bonus on its anniversary date equal to premiums for..... 5 weeks

These bonuses are thus for percentages varying from about TEN to ONE HUNDRED PER CENT. of the amount of weekly premiums for a year. It will be observed that the bonuses are graduated by the age of the policies.

The whole life policies issued between January 1, 1907, and July 1, 1909, have received a reversionary dividend of about ten per cent. of their face during the past year (that is, have been increased in amount about ten per cent.). This cost the Company \$600,000 in 1909; and will cost many hundreds of thousands of dollars in subsequent years in increased Reserve. The whole life policies, issued since July 1, 1909, have been increased about ten per cent. in amount above the amount of insurance previously provided for the same respective premiums.

BONUSSES ON DEATH CLAIMS

Death Claimants on whole life policies issued between January 1, 1907, and July 1, 1909, whose claims had been settled, have received in the last six months a payment of mortuary bonuses of about ten per cent. in addition to the amount previously received, at a cost to the Company of over \$250,000.

Payment on Death Claims in 1910 will be increased over and above the face of the Industrial policies by amounts determined by the following scale:

When death occurs after policy has been in force over 5 years.....	5%
When death occurs after policy has been in force over 10 years.....	10%
When death occurs after policy has been in force over 15 years.....	15%
When death occurs after policy has been in force over 20 years.....	20%
When death occurs after policy has been in force over 25 years.....	25%
When death occurs after policy has been in force over 30 years.....	30%

The cost to the Company of these CASH bonuses is estimated at

\$5,204,639.95

Added to the bonuses heretofore paid for the last sixteen years OVER AND ABOVE THE PROMISES MADE IN THE POLICIES, this will bring the total CASH bonuses up to

Twenty-one Millions of Dollars in CASH in 17 Years!

The Additional Cost of Concessions in Reserve Liability has been Four Millions of Dollars

The sources of these bonuses are:

1. Decrease in expenses—TEN PER CENT. in nine years to the close of 1908.
2. Saving in the Mortality which was expected when policies were issued.
3. Gains in Interest actually earned over the amount required by statute for accumulation of Reserves.
4. The fact that on a premium income of nearly \$50,000,000 a year the Stockholders receive only \$140,000, which is more than earned from the income of their own capital and surplus; the balance of such income going to the increase of the fund from which Bonuses are paid.

A CRIME AGAINST HUMANITY.

Upon the prairies of Montana, North Dakota and Alberta, millions of cattle and tens of millions of sheep roam, absolutely unconfined by fence. This is stock raising, which, altogether in the United States, covers about 18,000,000 square miles. The value of the range cattle represents over \$500,000,000, not to mention nearly 100,000,000 in sheep.

Stock raising means that cattle or sheep must take care of themselves as best they can from December to April or May, when the bleak prairie is covered with snow, and there is no shelter or water—only ice and snow to eat in its place. For food there is sparse dried grass, that has to be pawed from under the ground's winter cover. Exhausted, chilled through parched with thirst, and consumed with hunger, huge steers, cows and calves wander aimlessly for a time and then drop down, never more to rise. Cattlemen expect to lose from 5 to 10 per cent each winter from starvation. It becomes 15 to 25 per cent. It is a bad year. Their method, akin to that of the zamboni, becomes disastrous, however, when unremitting cold sets in early, when deep snows last the winter through, and the spring round-up shows a loss of 60 to 80 per cent.—From Collier's for February.

From 1880 to 1908 the heart death rate of the United States increased 87 per cent.

RAILWAY AFFAIRS

Steel Passenger Cars.
What is probably the largest steel passenger car equipment owned by any railroad in the world is that of the Pennsylvania railroad, which with the cars just completed and those in course of construction, has 350 all-steel passenger cars. With this large number of steel cars, the Pennsylvania railroad is now to start the operation of all-steel passenger trains on some of its lines of densest traffic.

On August 12, 1906, the Pennsylvania railroad announced that all future passenger equipment would be built of steel, not only steel frame, but steel and non-collapsible in every particular. In planning the cars and establishing the standards, which are now copied in all Pennsylvania passenger cars, no expense has been spared by the company to build a coach which should provide the greatest possible strength, a steel framing which could not be affected by fire, an inside lining which would be absolutely unburnable, and at the same time, one that would not conduct heat or sound.

COURT NEWS

COMMON PLEAS COURT.

The case of State vs. James Taylor, indicted for shooting Roy Cole with intent to wound, was continued to next term of court, on account of the absence of a witness on behalf of Taylor.

The case of State of Ohio vs. Harry Hunter, charged with having burglar tools in his possession, is on trial to the court and a jury.

Hunter was arrested on a street car in this city some time ago, was searched and several articles were found on him, the state claims, consisting of a chain, a piece of a heavy spring, claimed to have been used as a jimmy; a piece of candle, and a screw driver, as the indictment charges.

In the case of State vs. John Miller, indicted for highway robbery, the jury after being out until late last night, were called into court this morning, and inquired of if there was any probability of their agreeing upon a verdict. The jurors informed the court that there was not, and they were discharged from further consideration of the case.

The case of State vs. Winfield J. Davis, indicted for obtaining money under false pretenses, resulted in the court, at the conclusion of the testimony on behalf of the state, sustaining a motion of counsel for defendant to arrest the testimony from the jury, and the court directed the jury to return a verdict of not guilty, which was done, the court holding that sufficient evidence had not been offered by the state to make out a case.

"Martyr of the Maine"—Adjutant
Rosenbrough.
Short Talks; "America;" Taps.

May 4, 1898—Robert Burns Wilson, New York Herald, "Remember the Maine."
When the vengeance wakes, when the battle breaks
And the ships sweep out to sea,
When the foe is mowed, when the decks are cleared,
And the colors floating free,
When the squadrons meet, when it's fleet to fleet,
And front to front with Spain,
From ship to ship, from lip to lip,
Pass on the quick refrain,
"Remember, remember the Maine!"

When the flag shall sign "Advance in line,
Train ships on an even keel"
When the guns shall flash and the shot shall crash,
And bound on the ringing steel,
When the rattling blasts from the armored masts
Are hurling their deadliest rain,
Let their voices loud, through the blinding cloud,
Cry ever the fierce refrain,
"Remember, remember the Maine!"

God's sky and sea in that storm shall be
Fate's chaos of smoke and flame,
But across that bill every shot shall tell,
Not a gun can miss its aim;
Not a blow shall fall on the crumbling wall,
And the waves that engulf the slain
Shall sweep the decks of the blackened wrecks,
With the thundering, dread refrain,
"Remember!!! remember!!! the Maine!"

THE CURSE OF CALOMEL

Everyone should know that Calomel is a dangerous drug if taken without the advice and direction of the Physician.

CALOMEL IS A CURSE
Although it is but the mild Chloride of Mercury, when it passes into the bowels it is often changed into the poisonous Corrosive Sublimates, which ruins the teeth and gums and inflames the bowels, causing Dysentery and Piles. So when you are not feeling "Just Right"—a little blue or dull, with a nervous headache, don't take it. Go to the drug store and get a package of DR. EDWARDS' OLIVE TABLETS, and see what they will do for you. They are the only laxative tablet that are designed to do what Calomel should do for you, without the bad results of Calomel. They are perfectly harmless, do not have to be chewed or dissolved in the mouth, are small, sugar coated and easy to take. They don't leave a bad taste and do their work perfectly. At all drug stores in neat 10c and 25c packages. The Olive Tablet Co., Portsmouth, O.

Sleeplessness

EVANGELIST'S
SUBJECT WAS
PRODIGAL SON

There were six more additions in the Brooks meetings last night at the Central Church of Christ, making a total of an even one hundred to date.

In spite of the sleet and snow that filled the gutters and covered the sidewalks, there was a house full of people last night.

The Junior chorus was on hands ten minutes early for a song drill. They received a new supply of badges last night and were correspondingly happy.

A male quartette sang "That Beautiful Land." Mr. Lewis sang a solo, "The Call of the Prodigal."

The sermon last night was on the Prodigal Son and was a vivid portrayal of the young man's experiences who wanders from home and from the right.

Mr. Brooks took up the cudgel in defense of boys. He made a very strong appeal to parents to have the "boys' room" brought down from the attic and put on the first floor.

"Have you got a boy's room in your home? I'll tell you where it is located—it's right next to the roof. If you have an old ingrain carpet on the sitting room floor, with holes and rents in it, you will beat that old worn out carpet around a little bit when you clean house in the spring, and then say, take it to the boys' room. If you have a three-legged table, stand it in the corner of the boys' room. The old, rickety old chairs go to the boys' room. If you have a whopper-jawed picture that will give you a nightmare to look at it, hang it in the boys' room. That room is the catch-all of the whole house."

Tonight the subject of the sermon will be "The Good Confession." Services begin at 7:30 o'clock.

HOW CHILDREN KICKED AND SQUIRMED
in olden days when Cod Liver Oil was administered in crude form. No one could blame them, for it was simply nauseating.

Modern methods have devised a way whereby all the medicinal elements of Cod Liver Oil without the oil or grease are combined with tonic from, thus giving to the world two world-famed tonics in a most delicious and palatable form. It is unequalled to overcome pulmonary troubles and build up weak and aged persons. Frank D. Hall, Drug-gist, Newark, Ohio.

RESOLUTIONS OF RESPECT.
"Our lives are gliding through
To that unattended, boundless sea—
The silent tomb."

In memory of Sister Alice Burch, who died January 20th, 1918.

"Leaves have their time to fall, and flowers to wither, at the North wind's cold blast, but thou, oh, Death! hath all seasons for thine own." Once again a sister, having completed her allotted task in the conflict of life, has passed through the portals of Eternity and entered the Grand Chapter of the New Jerusalem.

And Whereas, The all-wise and merciful Master of the universe has called from our Chapter our beloved and respected sister:

And Whereas, She having been a true and faithful sister of our beloved Order, therefore be it

Resolved, That Eagon Chapter, No. 123, Order of the Eastern Star, Hebron, O., in testimony of her loss, be draped in mourning for thirty days and that we tender to the family of our deceased sister, our sincere condolence in their deep affliction, and that a copy of these resolutions be sent to the family.

**ARMY AND NAVY
IN FRICTION**

Constantinople, Feb. 16.—The long standing friction between the Greek army and navy, reached a climax today according to dispatches from Athens when troops occupied the city anticipating an attack by the navy.

Athens is hysterical from alarm, the dispatches say. In view of the strict naval censorship, it is believed the situation is much more critical than the report indicates.

Every man should know himself, but in doing so he wastes a lot of time that might be spent in making more agreeable acquaintances.

HENRY GERLACH

Accepts Position With Stewart Bros. & Alward, in the Arcade and Union Block.

Mr. Henry Gerlach, who for several years was in the carpet and drapery department of the Powers-Miller company, and who for the past eight months has held similar position with the D. C. Boggs company, Col-

umbus, Ohio, has accepted a position and is now in charge of the carpet and drapery department of the Stewart Bros. & Alward company's big home outfitting store in the Arcade and Union Block.

With Mr. Gerlach's several years of experience in handling and selling this class of goods, it is an assurance that this department will be most ably managed and conducted, and he invites his many friends to visit him at his new location.

Prices of an living increased, the only exception Mrs. Austin's pancake flour. Same old price at all best grocers.

R. LEONCAVALLO,
FAMOUS COMPOSER
OF ITALIAN OPERA

Ruggiero Leoncavallo, the famous composer, whose opera, "I Pagliacci," has been a favorite with many lovers since its first presentation in 1892, was born in Naples, March 8, 1858. Leoncavallo ranks with Puccini and Mas-

Spokane, Wash., Feb. 16.—"Boomer," a trained dog, which assists its master, John L. Brennan, in watching a crossing on the Northern Pacific railroad, is proof of the oft quoted theory that evil associations corrupt the morals of canines as well as human beings.

The dog was arrested by Humane Officer Rudersdorf on complaint of the Washington Water Power company on the charge of attacking its street car conductors in an outlying district in Spokane. The cause of the animal's depravity is its habit of frequenting a saloon near its post at Division street when not on duty. Loungers in the ginny have derived what seemed to them amusement by siccing the dog on the conductors, and it appeared to be a case of abating the dog or equipping the car men with leg guards. The company believed the former course to be the most economical and the result is the "Boomer" is languishing in the Humane Society's basket, while its owner is obliged to do all the work at the crossing. Brennan has enlisted the aid of several councilmen to save the dog from the crematory, promising that he will not permit the animal to visit the saloon in the future.

**BREAK UP THAT
COLD IN A DAY**

You can stop a cough or a cold as if by magic by just breathing soothing, healing Hyomei over the sore, raw, and inflamed membrane.

This is from a man who knows: "Mrs. Mager and myself have used your inhaler faithfully whenever needed and it has always given instant relief and saved us from severe colds."

The above is voluntarily given and if in your estimation its use as a testimonial would help to get others to use it, will gladly have you do so, as we consider it a wonderful discovery and recommend it whenever opportunity presents itself." F. W. Mager, Contracting Freight Agent, C. H. & D. Ry. Co., Cincinnati, Ohio, October 22, 1917.

Don't fool with stomach nostrums; try magical Hyomei at once; it relieves a stuffed up head in two minutes.

A complete Hyomei outfit, including inhaler and one bottle of Hyomei, costs only \$1.00 at drug stores everywhere and at T. J. Evans. It is guaranteed to cure catarrh, croup, coughs, colds, sore throat and bronchitis or more back. Extra bottles of Hyomei—if afterward needed—cost but 50 cents.

Stops Lameness

Much of the chronic lameness in horses is due to neglect. See that your horse is not allowed to go lame. Keep Sloan's Liniment on hand and apply at the first sign of stiffness. It's wonderfully penetrating—goes right to the spot—relieves the soreness—limbers up the joints and makes the muscles elastic and pliant.

Here's the Proof.
Mr. G. T. Roberts of Ramoth, Ga., R.F.D. No. 1, Box 43, writes:—"I have used your Liniment on a horse for some time and effected a thorough cure. I also removed a spur on a mule. This spur was as large as a gizzard. In my estimation the best remedy for lameness and soreness is."

Sloan's Liniment

Mr. H. M. Gibbs, of Lawrence, Kans., R.F.D. No. 3, writes:—"Your Liniment is the best that I have ever used. I had a mare with an abscess on her neck and one toe bottle of Sloan's Liniment entirely cured her. I keep it around all the time for galls and small swellings and for everything about the stock."

Sloan's Liniment will kill a spavin, curb or splint, reduce wind puffs and swollen joints, and is a sure and speedy remedy for fistula, sweeten, founder and thrush.

Price 50c. and \$1.00
Sloan's Liniment on horses, cattle, sheep, swine, etc., cures all ailments.

The Sewing Time Of The Year

Makes lace sales and summer dress fabrics interesting lines. Our import lace line is placed on sale today. We are featuring over

5000 Yards of French Laces

All Linen Torchons running in width from 1 to 3 inches wide; also about 1000 yards of the fine, narrow, even mesh laces that look for all the world like the 10c, 12c and 15c French laces. All 5c a yard

NEW GINGHAMS 15c a yard

It is the universal expectation that Gingham will outrank every other fabric in popularity for this summer's dresses. The patterns were never so pretty, the colors never so clear out and fresh looking. We will open tomorrow about 50 patterns of Zephyr Gingham that we will offer the entire line at 15c yd.

BRUSSELS CARPETS

With Borders to Match 70c a yard

These are the heavy tapestry carpets that sell usually at 95c. These patterns have only one carpet left of a kind. The quantity is too small to continue them in the line. Consequently we offer them at 70c yd.

MATTER OF THE SPRING VACATION BEFORE BOARD

The regular meeting of the Board of Education was held on Tuesday evening with all the members present and after roll call the first business done was the reading of a number of bills.

Prof. F. O. Steele gave a brief report of the work in the drawing department and discussed the matter of all the school buildings having flagpoles. He expressed the desire that the board would see it to have poles placed on all the buildings in the near future.

The board ordered some bonds and interest on bonds amounting to about \$2,000, to be paid, and also authorized Principal Williams, of the High School, to have two copying machines refilled at a cost of \$2.00 each.

A communication was received from Dr. D. J. Kane in reference to a boy by the name of Cleveland, who was sent to him by a teacher in the North Fourth street school to have his eyes examined. The doctor reported that the boy's eyes were bad and the parents were not able to secure the necessary treatment and glasses for him. The case was referred to President Kibler, with the power to take such action as, according to law, is allowed the president of the board to secure such relief for indigent children.

Miss Margaret Jones, teacher of the seventh grade in the West Newark school building, was chosen to succeed Miss Columbia Thompson, who has resigned her position in the High School to accept one in a Columbus High School. Miss Jones' salary was fixed at \$45 per month for the remainder of the year.

On suggestion of the superintendent, the matter of the spring vacation was brought up for discussion. Some members thought that on account of the two weeks vacation at Xmas time the week's spring vacation could be dispensed with and school dismissed a week earlier in June, but as the board failed to agree on this matter, it was postponed until the next meeting.

SCIATIC RHEUMATISM

Rheuma Will Drive It Out or Evans' Drug Store Gives Your Money Back.

Most people in Newark know that Rheuma cures Rheumatism, but they don't know that it acts strongly on the kidneys and causes painful kidney trouble. If your kidneys bother you, get a bottle at once.

James R. Paige, Wilkes, N. Y., says: "I had been troubled with sciatic rheumatism for four years in my right hip and leg, and have used many remedies for the same. Also had kidney trouble. Nothing gave me much relief. A friend persuaded me to try Rheuma, and for two months took it as directed. I consider Rheuma the best Rheumatic remedy extant, and for kidney trouble can not be excelled."

The generous money-back offer of Evans' Drug Store has created a lively sale of Rheuma, and no fair-minded person who knows Rheumatic agony should hesitate a moment. A few days' use will prove its remarkable merit. Get a bottle of Rheuma before the offer is withdrawn. After the poisonous uric acid has left your system and you are painless and happy, tell all your friends. 50c a bottle. Mail orders filled by Rheuma Co., 1000 West

PAROLE LAW

Of Illinois Is Declared Unconstitutional and Many Complications May Arise.

Springfield, Ill., Feb. 15.—The supreme court today declared as unconstitutional the Illinois parole law. Consequently all paroles under this act are illegal, and the opinion is that Paul O. Stensland, C. W. Herling, Mrs. Ron. aka, ex-wife of a Milwaukee millionaire, and others paroled by the state board of pardons will have to return to the penitentiary.

GET THEIR CALLINGS.

Washington, Feb. 15.—Senator Beveridge, sponsor for the Arizona-Mexico boundary measure; Senator Jones of Montana, who introduced the postal savings bank bill; and Senator Borah of Idaho, who introduced the Taft tariff bill, each received a short but sharp call. They were instructed to see that administration measures were hurried along.

MAKES GOOD HEALTHY FLESH.

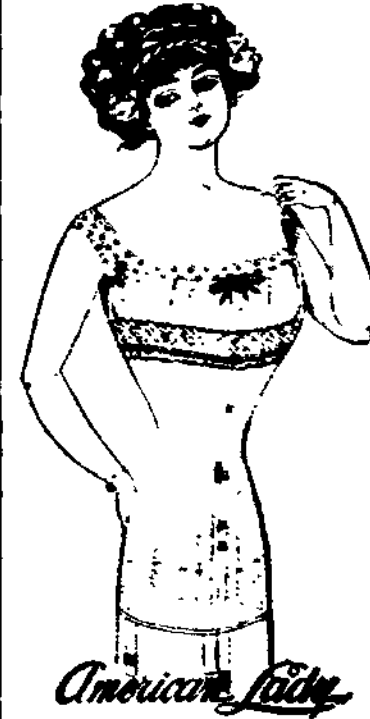

W. A. Egan & Son, Offer to Pay for Samose If It Fails.

Begin the use of Samose today, and you will soon notice a gain in weight, heretofore lost. To all who are thin, weak, run down, this remarkable, life-forming food propels plumpness, perfect health, vigor and energy.

Samose is a food with the fact that is eaten, so it is assimilated by the blood, and builds up plumpness and good healthy flesh. Those who use Samose for a week or ten days will soon notice a gain in weight and improvement in general strength and health.

Put good, solid flesh on your bones, and you will be strong and well. In no other way can this be done than by the use of Samose. It gives plumpness and physical grace to the thin and scraggy, and will make you bright, rosy and normally fat. Samose is a tablet form, pleasant to take, and is sold by one of the most reputable drug stores in Newark, W. A. Egan & Son, under their personal guarantee to refund the money if it does not give satisfaction. Sent postpaid on receipt of price, 50 cents.

LECTURE AT THE ST. FRANCIS DE SALES CHURCH TONIGHT

"If the age may influence the church. The church must influence the age." The lecture at St. Francis de Sales church on Science and its Influence on the Age will begin this evening at 7:30 o'clock. The subject will be handled from a scientific as well as a religious standpoint, and the lecturer, while giving all that is due to science, will show that it should be only the handmaid of religion, and without the latter it necessarily tends downwards and fails to attain its true object. The necessity of religion to make use of science and direct its course will be clearly shown; and the thought that will unify the discourse will be contained in this text: "And thus I pray that your charity may more and more abound in all understanding; that you may approve the better things." — Phil. II: 9-10. All are welcome.

NOW THEN FOR THE RED, WHITE AND BLUE

Phila., N. Y., Feb. 15.—So contagious is the Cornell spirit that a well-known member of the most distinguished basketball team has been persuaded, after a long resistance, to profess himself a Cornell State College of Agriculture student. The player, who is a Cornell graduate, has been seen at the Cornell campus. The player, who is a Cornell graduate, has been seen at the Cornell campus.

Ask Any Man

"What would you do if you were 10 years younger?" and see if 9 out of 10 won't answer you, "I'd save my money." NOW, they appreciate the value and power of financial independence.

Young men, don't wait ten years more to wake up. Take a lesson from the man ten years older and start to MAKE MONEY by SAVING MONEY.

The best way to save is by means of a Savings Account with "The Old Home," where your money is safe, subject to call at any time, and earns 4 per cent. interest, compounded semi-annually.

onstrating the failure of the county local option law as a remedy for the evils resulting from the sale of intoxicating liquor as a beverage.

Like state-wide prohibition, county prohibition does not prohibit. The same ineradicable traits of human nature which make state-wide prohibition a failure, bring the same results in the county form of the same old evil. What is wrong as a whole is never right in parts. What is a failure where extended to state limits is only a little less a failure when confined to a county.

Local option must be local, and it must confer, not take away, an option. Anything else spells failure. The White Slave bill designed to heavily penalize all manner of traffic in the shame of women, was favorably reported by the house committee today and will be on the calendar for passage next week.

Superintendent Wayne B. Wheeler of the Ohio anti-saloon league is making a determined fight on the Gebhardt bill which would keep all the revenue from saloons within the counties where they pay the tax. The claim for the bill is that all counties which have voted dry are benefitting by that part of the Alken tax which goes from the wet counties to the state funds.

If the corporations have their way there will be but six more weeks of this session of the legislature. Yesterday a joint resolution for final adjournment April 2 was offered in the house by Representative Walter W. Vaughn of Morrow. It was ascertained that neither the Republican nor Democratic legislative leaders are lack of it, but it has the sympathy of the corporation lobbyists, who are wintering in Columbus for the purpose of educating the members in the principles of political economy.

It is figured that by resort to the usual filibustering tactics, together with the natural slowness of a large legislative body to act, the passage of the big bills on the legislative program could be prevented if there should be a get-away as early as the day following All Fool's day. That would be the easiest way to beat the public utilities bill, the state tax commission bill and others which the special interests are now opposing.

In 1904 when the corporations had a utilities bill to their liking, as the commission would have had the power to grant franchises, they had it introduced by Dr. LeFevre of Morgan, a farmer from a county which at that time did not have a mile of electric road. This year they want to prevent the passage of the Woods utilities bill, and are for a stop-dork resolution. Vaughn is a farmer.

FATALITY

Punished Those Connected With Famous Pennsylvania Graft Case. Sudden Death of Witness.

Harrisburg, Pa., Feb. 16.—John E. Stott, an important witness in the capitol graft trial, who was secretary of the board of public grounds and buildings during the construction and equipment of the state capitol, was found dead early today in the bath room at his boarding place. A physician pronounced death due to apoplexy. This is the sixth death of persons connected with the capitol graft cases.
